Your Composite Chart

A composite chart is simply a horoscope made up of the midpoints between the natal charts of two different persons. What results is a new horoscope that describes the interface between the two personalities: the shoreline where one leaves off and the other begins. Like any coastline, it may be even and easygoing at one point and convoluted and forbidding at another. And, like any shore, it is subject to fair and stormy weather. This astrological “weather” is the repeating transits of the planets.

Watching these transits, you can spot a host of intricacies in your relationship that you likely did not know were there. Once spotted, you have the opportunity to take better advantage of what is already going for you and more effectively grapple with problems that were hidden or only partially-revealed before.

- 15° 10’ Midheaven in Scorpio
- 25° 41’ Ascendant in Capricorn
Experience Control

A relationship is defined not only by its generally accepted boundaries, but by the limits of them, how far they can be stretched. What comprises going to far to either or both of you? What do you think you just can’t quite accomplish? Reflection on and recognition and respect of your individual limits allows you each to retain them without always having to share them.

Moon Opposite Saturn (Waxing)

Ideas of Control

This can be a must-have moment when elements of desire and forces of determination combine to overwhelm the ordinary. If it’s worth giving yourselves over to (in love or war), then go ahead and do what is necessary. It is a time, however, when one tends to ignore some of the more obvious consequences.

Venus Conjunct Pluto

Manage Emotional Stengthening

It’s a good time for tending to mutual work and finance matters as there’s increased general support for what you do -- not enough to make you famous by yourselves, but certainly added encouragement to get you there under your own steam. Positive reinforcement is like having a second engine driving your vessel.

Moon Trine Midheaven (Waxing)

Protector

This is a moment you’re likely to feel comfortably in orbit together, based on your trajectory toward agreed-upon dreams and goals. The joy is definitely in the journey here, as the comfort is happening now almost to the point of overlooking it if you’re not careful. Smell the roses, even if they’re small.

Venus Sextile Neptune (Waning)

Feelings Are Accented

This monthly transit or “lunar return” is quite important as it is a primary cementer of the relationship. It marks the transfer of emphasis of the monthly emotional from one of you to the other, the handshake point at which you are truly emotional equals. Rebond well now, and it all builds for the better.

Moon Conjunct Moon
**Embody Insights**
There is a giddy feeling when the ride is just bumpy enough to elicit squeals of delight but not enough to balloon into real fear. Catch that moment together in whatever you do today, as external elements conspire to give you that ride if you choose to let them. There’s a fresh wind up, set full sail.

*Moon Trine Uranus (Waxing)*

**Spiritual Signs**
Mixed feelings and confused messages get lost because you’re at loose ends about just how to apply your separate imaginations to become joint reality. Let the mists pass and brush away each other’s cobwebs without tarnishing any fondly-held fantasies and you’ll find better focus down the road in a day or so.

*Moon Square Neptune (Waxing)*

**Preserving**
Feelings of mutual plenty abound if you’re willing to fall into that welcome space. Your ambitions and potentials seem to dovetail just right when you’re working together and share a joint vision. You’ll benefit even if you just let the moment drift, but seizing onto it will get you a lot more mileage.

*Moon Trine Jupiter (Waning)*

**Mental Patience**
You get more said by saying less right now, as long as what you do say goes right to the heart and doesn’t beat around the bush. A few simple words promoting the most uncomplex feelings is all you need to get your mutual points across, understand your joint positions clearly.

*Mercury Sextile Saturn (Waxing)*

**Long Suffering**
It’s really time to smell the roses when you stop even noticing them. Taking a good situation for granted is actually a real pleasure, especially when you appreciate the ease and gratification in being peacefully in orbit together. It doesn’t require an orgy of self-satisfaction, just quiet thanks for the moment.

*Moon Sextile Venus (Waxing)*
### Thursday, October 29, 2009

**Career Step**

A hunger for change and expansion where it's not practical can lead to dissatisfaction and even loss, whether it be in money or love, so make sure your mutual desires and ambitions are on the same page. Greed and need are not the same but are easily confused right now, with simple waste only one possible result.

*Venus Square Jupiter (Waxing)*

### Friday, October 30, 2009

**Feelings of Acceptance Arise**

It's easy to be personable right now, as quiet support says yes to your rhythms in subtle ways you may not even pick up on except to notice that you're a little more comfortable in your shoes. Communication runs easy and commentary pleases whether it's just everyday chatter or something much more intimate and meaningful.

*Moon Sextile Ascendant (Waxing)*

**Mental Objectivity**

General outside events may lead you to question your mutual judgment and analysis of the situation, trip you up when conflicting ideas arise from without that you can't resolve within. Wasting too much time coming up with a mutual resolution may take longer than simply running with an ad hoc solution until you agree again.

*Sun Square Mercury (Waning)*

**Emotional Experience**

This time of the lunar month marks emotional rewards arising from the relationship, payoffs from having put as much as you have into it. You get back what you put in, so much of the nature of what you receive at this moment flows directly from how well you've been tending to the situation.

*Moon Opposite Node (Waxing)*

**Work With Ideas**

Sometimes you agree famously and other times you don't even notice you're on the same track. This is one of those latter occasions when it neither occurs to you to differ or to agree, since neither seems an issue. You're moving according to plan, so you have your eyes on the ball, not on the announcer analyzing the game.

*Moon Sextile Mercury (Waxing)*
Objective Values
Figuring out how to get the right things coming in your direction is the challenge, as desires develop at cross-purposes and what one person wants to give the other can feel is superfluous or inappropriate. That applies between you but also to your surroundings, where the available bounty may not actually be what specifically suits your needs.

Motivational Insight
This moment of the lunar month accentuates your ability to take action together, telling you don’t just sit there, do something. So, do something. Sitting still right now will only result in nervous dissatisfaction, frayed energies, while getting a move on will make the most of the moment, take the tide at its flood.

The Experience
Sometimes the brain blanks from too much thinking, like the circuits still have juice but not enough to make the system operate. Together you may be experiencing a bit of this mental overload, like you’ve pursued more plans than you can actually fulfil. Don’t blow your breakers, just cut back a little, that’s all.

Successful Plan
A quiet moment of mutual reinforcement is welcome here, when you together seem to fit particularly well into your surrounding circumstances, allowing you to go with the flow without even noticing you’re doing it. Just enjoy your mutual orbit and the natural forces which favor your presence in the same spot.

The Experience
There are limits to what you can and can’t do, jointly or alone, which include everything from location to health to the state of the union. How much space do you each control and where are the mountains that cannot be scaled, from which you must divert your paths? Are they the same for both of you? Update your realistic powers so you know what you really can and can’t try to do. The thought for this day.
## Embody Inspiration
The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. It’s a feeling of hope mixed with awe, in that all things are possible and together you possess the key to their beginning. It’s that confidence that if you dream it, it can come.

*Moon Trine Neptune (Waxing)*

## Public Success
The size and scope of your mutual ambitions and requirements for growth could appear to be at odds -- what seems too much to one may seem not enough for the other. But it’s all about good things, essentially -- you can’t have too much of them, or can you? In the end, compromise is achieved, or surfeits will be come losses.

*Moon Square Jupiter (Waning)*

## Loving Act
Sometimes even the sweetest things cloy, or you can’t immediately get what you want, while what you don’t want is all around you. Don’t let it get you all cramped up, as this twice-monthly moment will move on soon enough. Particularly, don’t argue about it, because it’s not really either of your fault. No blame.

*Moon Square Venus (Waxing)*

## Mental Objectivity
Cross-talk abounds and you may find that it’s easier to get things down on paper individually than it is when you both are involved. Getting your mutual message across takes repetition and refinement, so be patient or be elsewhere. If you can’t take the chatter, get out of the parlor, try again tomorrow.

*Mercury Square Mercury (Waning)*

## Emotional Progress Arises
Requirements at home or work may get in the way of personal needs and attention, so don’t depend on getting everything you need until you’ve gotten necessities taken care of and out of the way. If your timing seems off, write it off to having to let others have their priorities attended to -- fair enough, sometimes.

*Moon Square Ascendant (Waxing)*
**Sunday November 01**

**Keep Control**
There are moments when a relationship is more than an active dynamic, it’s also something you can lean on. That’s in part reinforced by outside events that make you glad you have the mutual protection with someone comfortably but actively watching your back. When you know what to expect, you can take the time to savor it.

*Moon Trine Saturn (Waning)*

---

**Monday November 02**

**A Start is Made**
This is one of two days in the lunar month when you may really not agree on what your plan ought to be or just how to implement it. You can get into a lot of diminishing returns and waste emotional and mental energy, or you can make a list of what’s not really hitting things right, then discuss it on better aspects later. The choice should be obvious.

*Moon Square Mercury (Waxing)*

---

**Monday November 02**

**Manage Emotional Experience**
A good day or so to tend to the interior front, see what you can do to make things more tidy, safe, and secure in your own mutual castle where you can shut the doors and windows on the world when you choose. Keeping the home fires burning has a cozy appeal, whatever the weather outside.

*Moon Opposite Midheaven (Waxing)*

---

**Monday November 02**

**Positive Action**
This is one of two points in the lunar month which highlight the exchange of your differences and similarities and can sometimes put them into competition. You may feel that circumstances are putting unfair or irresolvable demands on the two of you or favoring one over the other. Avoid getting dragged into temporary issues and readjust.

*Moon Square Sun (Waxing)*

---

**Monday November 02**

**Accepting Feelings**
This is a good time for letting one of you express how both of you feel and give the other one a welcome rest. It’s really all about passive agreement on issues that are so much shared that it doesn’t matter who’s forming the words, since there’s no disagreement or competition over just exactly what’s meant.

*Moon Sextile Moon (Waxing)*
**Feeling Innovative**
How far out can you go, what is the limit of tolerance for untrained or untamed experience for both of you? That's a question to explore for a moment, as it will tell you just how far to push each other for fun before it becomes scary, and what one of you may feel thrilled by that may in fact offend the other. These boundaries keep changing, so you need to keep probing them for mutual enlightenment (good) and emotional safety (essential).

*Moon Opposite Uranus (Waxing)*

**Critical Path**
When enough is enough and plenty is plenty, you tend not to see just how full your cup is. Why? Because it's not empty, nor is it overflowing, just properly filled to satisfaction. So who would notice? Sometimes it's nice just to know you are preceding along nicely on your expected growth curve. Enjoy the moment.

*Moon Sextile Jupiter (Waning)*

**Embodying**
It's easy to please one another for the moment, or should be as the general environment is helping you both out to get what you want if you let it. Don't look a gift horse in the mouth, just mount it and go for a ride, see where it takes you. There's mutual enjoyment to be had, so jump right in.

*Moon Trine Venus (Waxing)*

**Emotional Stengthening Arises**
There's broad agreement that you're looking good today, so it can't hurt to get out and play, interact, generally have fun and shoot the breeze, indulge in bluesky imagination, and expand upon yourselves. The tide is running nicely in your favor, so ride it and see where it takes you, enjoy the scenery along the way.

*Moon Trine Ascendant (Waxing)*

**Public Control**
Harsh judgments on small failing raise insecurities from the point of nervousness to hostility if you're not willing to forgive and take a second look. Brief circumstances make it easy to criticize what you've got going for the moment, but time is more likely to be on your side than not, if you are willing to forgo lingering doubts.

*Moon Square Saturn (Waning)*
## Objective Values Arises

Although you’d like to be relaxing and looking your best, home or professional duties may have you a little on the rumpled side, so check the mirror every now and then just in case. Not individually, but at the same time. Fitting hand in glove is the intended effect, and that may take a second or third try to get it right.

*Venus Square Ascendant (Waning)*

### Implementing

Seeing eye to eye comes easy as the world around you seems to support your joint ideas and signs onto your plans as hoped. It doesn’t really matter who came up with what, the fact that you’re on target together makes it easy to develop the next step, set down procedures for the next step in your joint strategy.

*Moon Trine Mercury (Waxing)*

### Sublimate Feelings

There’s a feeling of strolling along, what composers call andante, in which your feelings and energies are perfectly in tune, even to the point of barely noting it. Comfort comes less from getting what you want but from doing it, knowing you’re both nicely in sync and quite sufficiently pleased with it as well.

*Moon Sextile Mars (Waxing)*

### Embody Outward

There’s a generally supportive atmosphere surrounding you, giving the feeling that you’re both better in tune with your surroundings as a result of being together. It tells you the story of what’s right and comfortable, especially in regard to how the rest of the world is treating you as a combo.

*Moon Trine Sun (Waxing)*

### Emotional Progress

Whose feelings count for more may become a little bit of an issue right now as one or both of you can feel a little at odds with the other in regard for the amount of attention you’re giving and getting. Don’t go making lists of individual grievances, as this will pass quickly if you just brush it off and move on.

*Moon Square Moon (Waxing)*

Conserving
Faith moves mountains, and knowing that all will come out all right in the end is the first step in seeing that it happens. That feeling is in the air, and you can invest in it for the moment, simply by spreading the good word, the good feelings. It’s more than belief, it’s blind faith, of the guided variety.

Moon Trine Pluto (Waning)

Inspiration Difficulty
Sometimes the imagination is stretched beyond the point of access or believability, and that is a major boundary you want to keep track of. You only keep hope alive when you both think there really is some, you only share dreams which neither of you dismiss as impossible. Perhaps time to sort some of that out so you’re on the same heading.

Moon Opposite Neptune (Waxing)

Critical Control
The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.

Moon Sextile Saturn (Waning)

Manage Practical Ideas
The word is out on the street about both of you, so be aware and tap in to what people are saying as you both stand to benefit from the attention. It’s a good time in general for collection information on professional matters and anything that affects your joint reputation, either at home or at the office.

Mercury Conjunct Midheaven

Miental Objectivity
There are some times people don’t get their information straight about you, and this may be one of them. If you have to repeat yourselves, try rephrasing what you are trying to get across. It may be there’s a fundamental misunderstanding of who you really are together that needs to be cleared up.

Mercury Square Sun (Waning)
**Strong Statement**
Arguments can be in store when stored-up energy gets blocked or there is uncertainty about actions already in progress. Like trying to check your swing on a bad pitch, your systems are in conflict but you can still cooperate to save the situation. Whatever you do, don't take it personally, just unite to meet the challenge.

*Moon Square Mars (Waxing)*

---

**Manage Emotional Conservation**
It's a good time for tending to mutual work and finance matters as there's increased general support for what you do -- not enough to make you famous by yourselves, but certainly added encouragement to get you there under your own steam. Positive reinforcement is like having a second engine driving your vessel.

*Moon Trine Midheaven (Waning)*

---

**Manage Ideas About You**
This is a great time of year for getting the word out about joint operations, using the celestial weather to help all your operations along, especially where the public, career, fame and fortune in general are concerned. Favorable comments are circulating, all you have to do is feed the birds and they'll distribute your message.

*Sun Conjunct Midheaven*

---

**Self and Others**
You may feel like the relationship seems to be steering itself off-track, like a car that needs realignment. If you stop steering, it doesn’t get straight on as normal. That’s a regular six-month blip that passes, produced by events favoring one of you over the other, but make necessary compensations and you’ll be back straight down the middle again.

*Sun Square Sun (Waning)*

---

**Emotional Stengthening**
This is an easy time of month when the balance of feelings is easily handled, letting one person handle more than the other in a real helpmate style. Helping hands gracefully extended meet their willing and thankful counterpart as you both cooperate to move things along to the benefit of both.

*Moon Trine Moon (Waxing)*
Caring FOR
There is a giddy feeling when the ride is just bumpy enough to elicit squeals of delight but not enough to balloon into real fear. Catch that moment together in whatever you do today, as external elements conspire to give you that ride if you choose to let them. There's a fresh wind up, set full sail.

Moon Trine Uranus (Waning)

Public Control
The urge to engage in power play at this moment can be a little intimidating, but it's based on the fear of losing out to impossible odds. Trying to manipulate them in your favor results in a downward spiral, as you need each other to turn the corner and find more comfortable situations. Stay the course.

Moon Square Pluto (Waning)

Ideas for Success
This is a moment that unites and reinforces your mutual ambitions, your inner urge to grow and grow together. Do something that takes you both beyond repetition and into some new direction you'd like to see yourselves moving into. Positive focus is strong and it's time to follow it in principle, leaving nit-picking details for resolution later.

Moon Conjunct Jupiter

Preservation
The world seems to agree with how you both feel about things at the moment, and you can probably put things into verbal perspective rather well. Sometimes words don't come easily, but this isn't one of them, so speak up and have your say about your reactions together and let the rest chime in in accord.

Mercury Trine Moon (Waning)

Experiencing
What feels right for the goose doesn't always turn on the gander, despite the common wisdom to the contrary, and this is a moment to find where your pleasures part but your friendship keeps you together. It may be that one does a special favor for the other, a trade for another special attention that otherwise might be neglected because it isn't all that mutual. That's when giving is most totally real, and appreciated.

Moon Opposite Venus (Waxing)
Insights and Ideas
Time to tap your wild side for ideas and inspiration, or let yourselves be stimulated by thoughts and ideas that are more off the beaten path than you've been up to. Surprises are the order of the day, so be ready to grasp and understand unexpected gifts that open up both your minds and your relationship.

Mercury Conjunct Uranus

Emotional Experience Arises
The spotlight is on how you view your own relationship today, not how others view it, so it's a great time for private discussion, emotional sincerity, getting to know each other more intimately. Shared feelings open up new rooms in your inner dwelling, greater balance and understanding promise to add support to the structure.

Moon Opposite Ascendant (Waxing)

Compassion
Your mutual aspirations are being fulfilled this year in ways that may not be immediately apparent until you look back upon the progress you made. Still, you'll feel comfortable about the way you're progressing along and that will enable you to tend to other details that require more attention.

Jupiter Sextile Neptune (Waxing)

Word Career
Big ideas and high ambitions together require brilliant coordination and planning, and now's the time for it. Take outside opinions and integrate them into your own to help pump up an already swelling balloon of possibilities. If it's new, aims for the top, and it feels right, start making plans into realities.

Mercury Trine Jupiter (Waxing)

Mind Experience
Sometimes it feels better to agree to disagree than to try to come together on a plan that doesn't really work for both of you. Still, a good discussion will get how you feel and what you know much better into sync, so you'll know where not to go as well as what approaches you might explore with potential in the future.

Moon Opposite Mercury (Waxing)
Conserve the Best
Events in general are supportive of your emotional development together and tend to drive you into each other's arms through positive reinforcement. Because it's clearly going to work out better to team up right now, there must be something to it. There are times you may feel the opposite, but right now the wind's at your back.

Sun Trine Moon (Waning)

Embodying
This is a great time for pursuing actions already begun, feeling the measure of your joint strength and its distribution between you. It feels right to stay with your direction and increase it, not to readjust it. It's the moment of the swung bat, the released pitch, the downward serve, the leap arcing through space toward its destination.

Moon Trine Mars (Waxing)

Original Ideas
The individual quirks and unique inclinations that make this relationship special are being highlighted, so make a point of being yourselves and enhancing why you are particularly different and original when you are together. That can mean breaking out of the mold or just taking a spontaneous break to rejoice in your joint inclination to do so.

Sun Conjunct Uranus

Manage Emotional Objectivity
Attention to personal matters takes precedence over professional ones and may even interfere with them. It's about you and who you are, not where you are or what you do, so get in there and mix it up, get intense about yourselves. The shoreline between you is where you step onto and off of the boat.

Moon Square Midheaven (Waning)

Full Experience
Sometimes it's important to feel where your differences meet as well as what you have in common. This monthly point allows you to get that into perspective, to get the feeling of the outward reach of the relationship, where you most swing apart in your dance before pulling back together again in rhythm.

Moon Opposite Sun (Waxing)
**Public Interest**

Disagreement upon where interesting new change meets inappropriate or dangerous directions can make disputes break out more harshly than they might over smaller things. Short temper or intolerance spring from real feelings of insecurity and mismatched pacing, so be willing to pull back and take progress a little slower in the interest of resolution and harmony.

*Moon Square Uranus (Waning)*

**Emotionally Critical**

Sometimes the limits of your life are so subtle that they entirely escape you, and that is all for the best at the moment. You feel you are on the right track, but not necessarily that you put yourselves there, but none of it matters when there is no storm in the offing. Faithful, prosperous emotional weather is a treasure, indeed.

*Moon Sextile Pluto (Waning)*

**Conserving**

The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. It’s a feeling of hope mixed with awe, in that all things are possible and together you possess the key to their beginning. It’s that confidence that if you dream it, it can come.

*Moon Trine Neptune (Waning)*

**Patient Merit**

Penny savings mount to dollar deposits and little gifts are the things that most sustain affection -- and right now it’s the small stuff that makes for the big support, both between you and around you. Reserved warmth turns into more than a glow if you let it have its way and stick around to play.

*Venus Sextile Saturn (Waxing)*

**Poet Critic**

If you want it, just indicate, and it’s there. You don’t have to make a Christmas list to get what you want under the tree because right now it just seems to appear on its own. You can only hope that happens come Christmas. Nevertheless, enjoy it for the moment, let it happen all by itself, no word necessary.

*Mercury Sextile Venus (Waning)*
Serious Ideas

Part of being in any relationship is becoming aware of its limitations and the ways in which it limits each of you. Now is a good moment to refresh yourselves about what you can and can't, should and shouldn't do without indulging in recriminations. You can't play the game if you don't know the rules, the boundaries, and the dimensions of the field.

Moon Conjunct Saturn
